DETAILED ACTION

Claim Objections

Claim 1 is objected to because of the following informalities:

Claim 1 recites the limitation "the eyepiece of a scope" in lines 5 and 6 of the claim. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 112

Claims 1-7 are rejected as failing to define the invention in the manner required by 35 U.S.C. 112, second paragraph.

The claim(s) are narrative in form and replete with indefinite and functional or operational language. The structure which goes to make up the device must be clearly and positively specified. The structure must be organized and correlated in such a manner as to present a complete operative device. The claim(s) must be in one sentence form only. Note the format of the claims in the patent(s) cited.

For example, the phrase, "may engage" in the 13 of claim 1 renders the claim indefinite because it cannot be determined whether or not the "tripod socket screw" engages the "slot in the base bracket".

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 2851

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by

Marcosky, U.S. Patent No. 2,990,759.

As best the examiner can ascertain from the language of the claims, the terms and phrases thereof are met by Marcosky.

2. Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Brock, U.S. Patent No. 5,835,807.

As best the examiner can ascertain from the language of the claims, the terms and phrases thereof are met by Brock.
